

APPOINTMENT TO BOARD OF DIRECTORS; RESIGNATION

January 23, 2009 – Triple Dragon Resources Inc. (CNSX: TDN) (the “Company”) is pleased to announce the appointment of Jenna Hardy, P.Geo., to the Company’s Board of Directors.

Ms. Hardy is an accomplished mining professional and brings over 20 years of experience to the Company. She holds an Executive MBA from Simon Fraser University and a Master of Science (Economic Geology) and a Bachelor of Science (Geology), both from the University of Toronto. She is a member of the Association of Professional Engineers & Geoscientists of British Columbia (APEGBC).

From 1993 through 2004, she served as Manager of Health, Safety, and Environment with Pan American Silver Corp. (NASDAQ:PAAS, TSX:PAA) where she was responsible for corporate oversight of health, safety and environmental issues at operating subsidiaries in Peru, Mexico and Bolivia, as well as development projects in Argentina, Canada and the USA. Since 2004, Ms. Hardy has provided environmental, corporate development and corporate governance services to mineral exploration and development clients including Western Canadian Coal Corp. (TSX: WTN), Capstone Mining Corp. (TSX: CS) and Commerce Resources Corp. (TSXv: CCE).

The Company also announces the resignation of Geoff Balderson from the Board of Directors. The Company would like to thank Mr. Balderson for the valuable insights and experience he made available to the Company during his tenure on the Board. The Company wishes him every success in his future endeavors.

The Company also wishes to correct previous disclosure in its news release dated December 18, 2008 relating to the sample results from the Murray Gold Property. To clarify, the highlight sample results in the release should have been as follows:

- Area A (historic Zone #6): chip samples returned 187.71 g/t (5.48 oz/t) Au across a 0.25 m quartz vein and 41.99 g/t (1.23 oz/t) Au across a 0.75 m section of wall rock;
- Area B (historic Zone #7): chip samples returned 20.83 g/t (0.61 oz/t) Au across a 0.25 m quartz vein; and
- Area E (historic Zone #3): a grab sample returned 10.08 (0.29 oz/t) Au from a quartz vein.

Jocelyn Klarenbach, P.Geol. of Dahrouge Geological Consulting Ltd., a qualified person as defined by National Instrument 43-101, prepared the technical information in this news release.
