

Pasinex Resources Announces Nine Month 2015 Financial Results

November 27, 2015 – Pasinex Resources Limited (CSE: PSE) (FSE: PNX) (the “Company” or “Pasinex”) announced the release of their financial results for the nine months ended September 30, 2015. The Company’s condensed interim consolidated financial statements and management discussion and analysis (MD&A) for the period have been filed with SEDAR and are available at www.sedar.com and on the Company’s website at www.pasinex.com. This news release should be read in conjunction with the Company’s financial statements and MD&A. All dollar amounts are Canadian unless otherwise indicated. Turkish currency (lira) is listed as TRY.

Steve Williams, President and CEO of Pasinex commented on the results of their Horzum A.S. joint venture which forms a part of the Pasinex Q3 financial results. “For the second quarter in a row, the joint venture company in Turkey has recorded another profitable quarter with a net profit margin for the year of a little over 25%. This is a significant achievement for the company at such an early stage. The increase is due primarily to the rise in tonnes produced per day – 40 tonnes per day to as high as 60 tonnes per day. The resulting cash flow is funding the development and exploration program there, where we are targeting a much bigger zinc resource. We are well on our way to building the Horzum A.S. joint venture company and Pasinex into a small, but strong zinc producer and we are confident these positive results will continue.”

Financial Statement Highlights of the Horzum A.S. Joint Venture Company Ended September 30, 2015

- **Sales:** High grade direct shipping of zinc mineral product from Pinargozu mine totalled at least 12,428 (wet weight) assaying +30% Zn. Subsequent to this date the company has sold another 1,215 tonnes (wet weight) of product (News release October 16, 2015) and 1,478 tonnes (wet weight) (News release November 26, 2015)

About Pasinex

Pasinex Resources Limited (CSE: PSE; FSE: PNX) is a base-metal and precious-metal focused Company with a goal to build a mid-tier international mining company. The Company's initial priority is to build a prospective portfolio of base-metal opportunities in Turkey. The Company has a strong technical management team with many years of experience in mineral exploration and mining project development. The focus of Pasinex is to build a mid-tier zinc company based on their Turkey zinc projects.

The Pinargozu mine is included in the 50-50 joint venture company, Horzum Arama Isletme AS (Horzum AS), which is a corporate joint venture between Pasinex and Turkish mining house, Akmetal Madencilik San ve Tic. AS (Akmetal AS). Akmetal A.S is one of Turkey's largest family-owned conglomerates with the past-producing Horzum Zinc Mine nearby.
