

Pasinex Files Amended National Instrument 43-101 Technical Report for the Pinargozu Mine

TORONTO, ON – January 30, 2019 – Pasinex Resources Limited (CSE: PSE) (FSE: PNX) (“the Company”) announces that it has filed an amended technical report on SEDAR. The report entitled “Amended NI 43-101 Technical Report, Pinargozu Project, Turkey”, and dated January 29, 2019 supersedes the report dated December 20, 2017 that was previously filed on SEDAR.

The amended technical report was prepared by CSA Global Pty Ltd. in order to comply with National Instrument 43-101 and does not contain any changes to the Mineral Resource estimate (with effective date of June 30, 2017) from the previously filed report. The amended technical report does however include additional disclosures to comply with the requirements for advanced status projects; specifically disclosures were added with respect to items 15 to 21 of the amended technical report.

This news release has been reviewed and approved by John Barry, M.Sc., P. Geo., who is the Company’s Vice President of Exploration and a Qualified Person under the definitions established by NI 43-101.

About Pasinex

Pasinex Resources Limited is a Toronto-based mining company which owns 50% of the producing Pinargozu high grade zinc mine and, under a Direct Shipping Program, sells to zinc smelters / refiners from its mine site in Turkey. The Company also holds an option to acquire 80% of the Gunman high-grade zinc exploration project in Nevada. Pasinex has a strong technical management team with many years of experience in mineral exploration and mining project development. The mission of Pasinex is to build a mid-tier zinc company based on its mining and exploration projects in Turkey and Nevada.
